METI Kyushu, Japan

Participation from Yellow Sea Rim Regions with the Goal of Forming Yellow Sea Rim Regional Economic Bloc

The Yellow Sea Rim Economic and Technological Conference began in March 2001 as a platform of exchange to develop and strengthen the economic bloc composed of CJK regions that border the Yellow Sea (Yellow Sea Rim Regional Economic Bloc). Seeing the necessity of economic cooperation among CJK at the ASEAN+3 Summit held in the Philippines in 1999 and in Singapore in 2000, the three nations agreed to establish a regular channel for cooperation in the Yellow Sea Rim region, leading to the establishment of the Yellow Sea Rim Economic and Technological Conference.

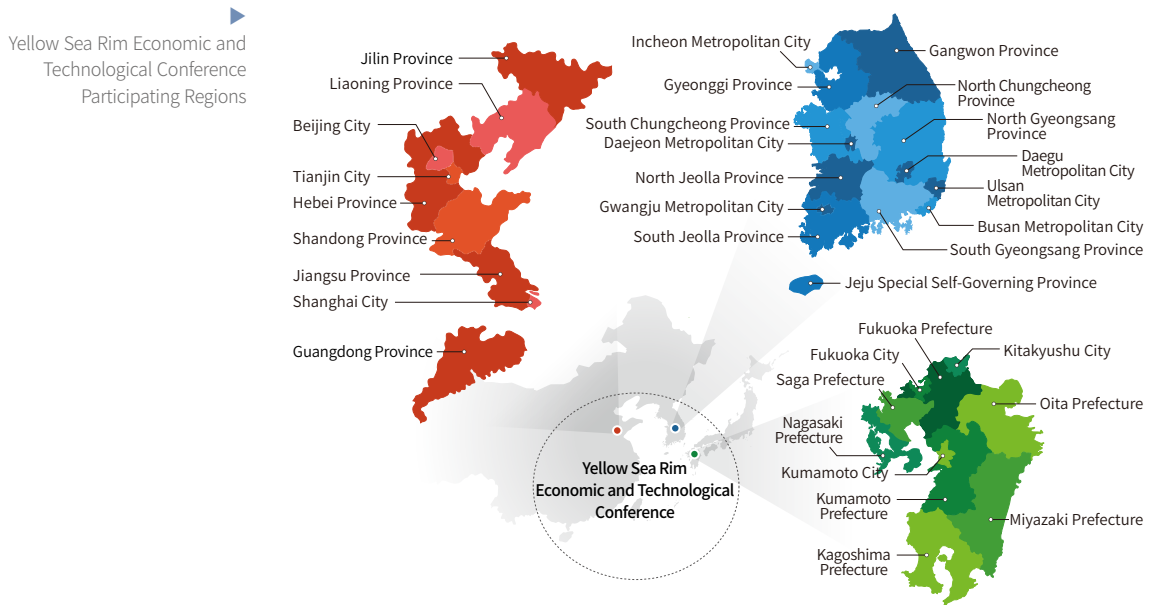

The participants of the conference are the Ministry of Commerce of China, Kyushu Bureau of Economy, Trade and Industry of Japan, and the Ministry of Trade, Industry and Energy of Korea, as well as related local governments, economic organizations, companies, and research institutions. The conference has acted as a forum for discussions on measures to cooperate in the areas of trade, industry, technology, and human resources. The conference also discusses specific business opportunities.
